Welcome Back

It has been wonderful to welcome back all of our children after a restful and relaxing half term. This week marked the start of our 'Great British Bake Off' for Lent, and what an incredible start it has been! Thank you to everyone who has baked and donated cakes. We have received some amazing, creative bakes each inspired by a Bible story or the season of Lent. We are proud to announce that we have raised £190.94 for Wigan and Leigh Hospice. Thank you for your support!

We are now looking forward to celebrating World Book Day next week. Children are invited to come dressed as their favourite storybook character, and we can't wait to see all of the creative costumes.

School Attendance

Every day counts...

Good attendance helps with...

Academic Achievement

Regular attendance helps children keep up with the curriculum and perform better academically.

Social Skills

Attending school regularly helps children develop friendships, social skills and learning how to interact with others.

Routine & Responsibility

Good attendance teaches the importance of commitment, routine, and responsibility, which are all valuable life skills.

Focus & Engagement

Children who attend school regularly are more likely to stay engaged in their learning and develop a positive attitude towards education.

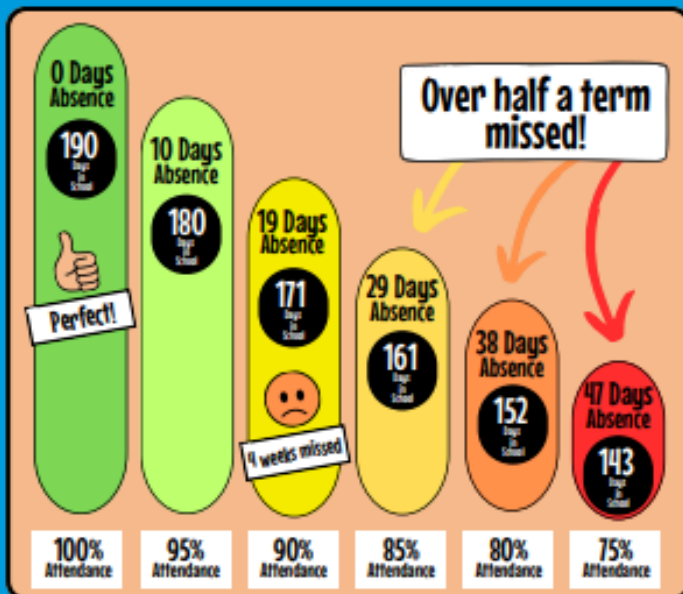

Building Confidence

Regular attendance can boost a child's self-esteem and confidence, as they see their progress and achievements over time.

Enhanced Learning Opportunities

School provides not just academic instruction, but also extra-curricular activities and enrichment opportunities.

Having 90% over 5 school years, is half a school year's work missed!

Did you know there are...

- 365 Days in a Year
- 190 School Days
- 175 Non School Days

Our school has recently adopted the Skills Builder Framework to embed life skills “from Early Years to Employment”.

The 8 essential skills are:

SPRING 2

Our Skill focus is...

Creativity is about . . .how learners create new ideas and possibilities in a wide range of settings and is the complement to problem solving. The first few steps focus on the ability to share different possibilities, share and express them, and create ideas when given a simple prompt. The focus is then on applying creativity to suggest improvements, combine concepts, identify opportunities for innovation, and develop success criteria.

At home, you can support your child's development of this skill by...

For younger children

Play 'Let's Pretend'. Encourage some role play using toys or dressing-up clothes. Use any theme that you know will capture their imagination!

Invent a helpful robot. What would it look like? What can it do to help people? Draw a picture or build a junk model of the new robot. Talk about it to others.

For older children

Fashion designer. Choose a theme, then create designs for a new outfit. The clothes could be inspired by some existing designs that you then adapt or could be completely new. Draw illustrations or create designs on the computer and talk about them to others at home.

Games Designer. Create a storyboard or play for a brand new computer game. Think about an existing game you enjoy then change the characters, setting and/or challenge to make it new. Talk about your ideas with someone at home.

"We're having a great experience with this nursery. The staff are kind and caring and our son is really thriving here. He's happy and always excited to talk about his day. We're very grateful to the team and would highly recommend this nursery."
Parent/Carer, January 2026

"The nursery is great. Lots of trips out and great activities for the children each day. Parents kept informed on an app as well as on pick up. Staff are really friendly and make each day fun! Good variety of snacks on offer as well as having the option of a lunch or taking your own."
